Production notes

Print the PRESS_Bleed_Crops PDFs at 100 percent scale with no fit-to-page adjustment.

Trim to the crop marks after printing. The artwork extends through the bleed area.

Keep the decorative border inside the final trim; do not enlarge or reposition the supplied art.

Keep the card interior white; do not add a cream tint or attempt to match the painted front background.

Request one physical proof before the full print run and confirm fold orientation with the printer.
